Description

Qty. Unit of Measure Description/Offer

1 lot Feedback Studio with Originality Integration

Similarity Scores-- Clearly and quickly identify matches in a student work to sources in Turnitin's comprehensive database. Unlimited drafts - Provides students the opportunity to receive immediate automatic originality feedback which they can use to access their own work and self correct before final submissions. Comprehensive Similarity Reports - Presents passages from highly similar material in a clear fashion that helps instructors figure out whether further investigation is warranted. Text Manipulations - Instructors can quickly identify submissions that have been deliberately manipulated to circumvent integrity-checking algorithms. Character Replacement - Auto detect when a student has replaced individual characters in their submissions to try to "pass" a plagiarism checker. Providing Feedback - Timesaving quickMarks, Ready-to-use Rubrics, Grammar checker, Engaging Voice Comments, Collaborative PeerMark. Turnitin Draft Coach (while drafting in Google Docs™ and Microsoft Word for the web) - Address unintentional plagiarism early on and identify any missing references and citations. AI Writing detection Capabilities - Instructors can check if student submissions include any AI-generated content. Our AI writing indicator shows the percentage of text that may have been generated by an AI writing tool such as ChatGPT while the AI report highlights sentences that were likely AI-generated.
